ATTENTION!

Cloud is the new normal: A must for the Enterprise

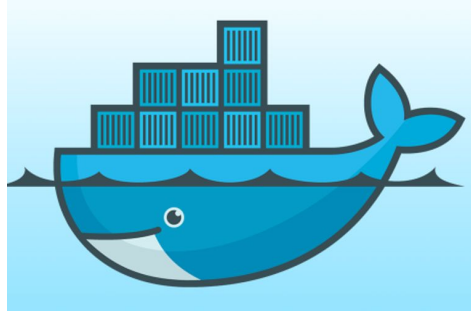

Multi-cloud efforts may persist

Private data centers won't go away

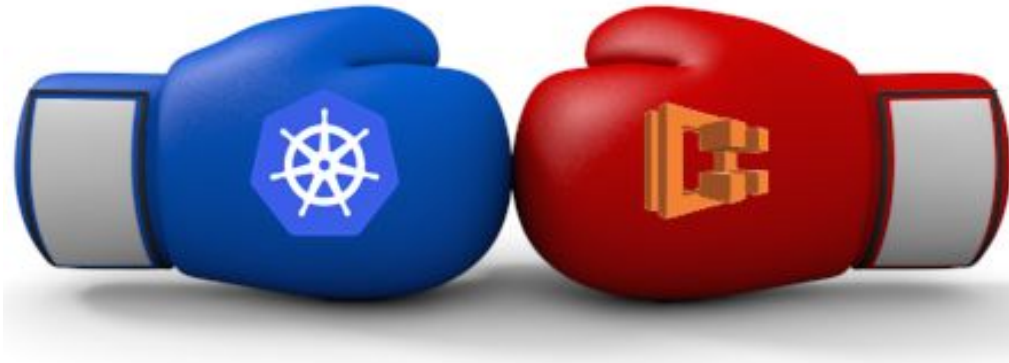

There's a container for that

Kubernetes

ECS

The continuing rise of Serverless computing

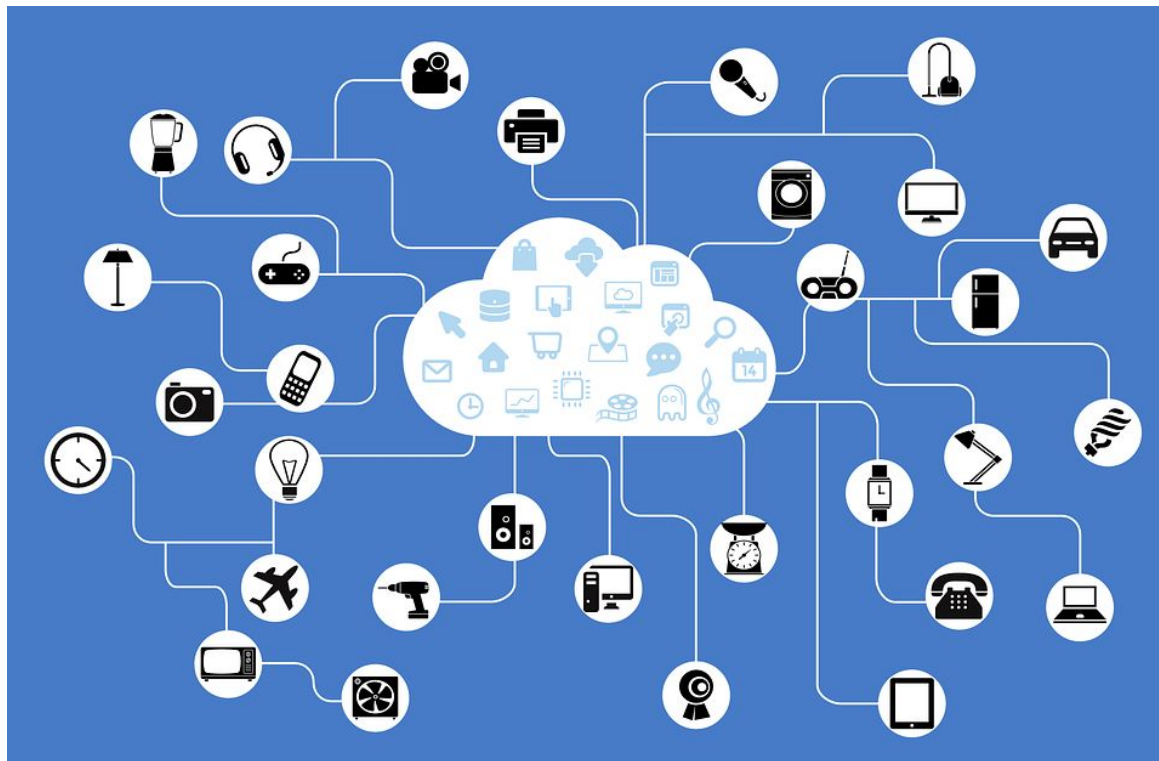

Serverless Patterns: “No server is easier to manage than no server”

Werner Vogel - VP & CTO at Amazon.com

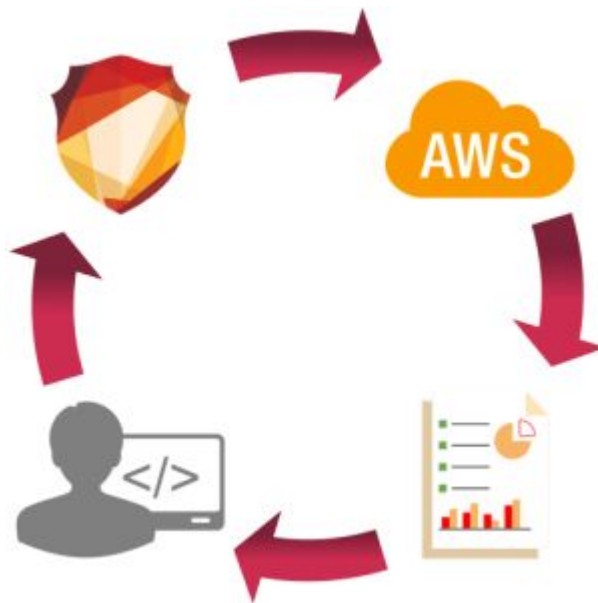

Cloud moves to the Edge

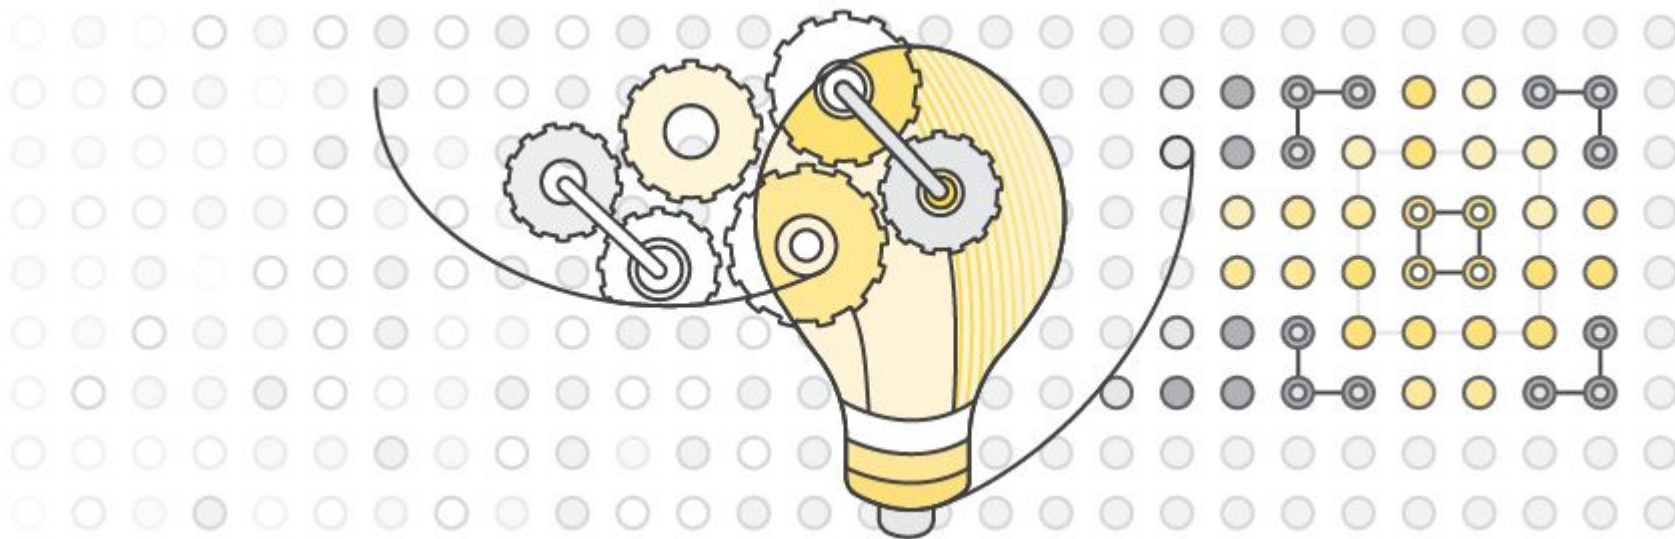

Increased Vulnerability for the Internet of Things

Cloud Security Workflow Automation

Machine Learning

The voice interface will become a major focus

The list of computing resources available “as a service” will continue to expand

Bonus: Latest AWS announcement Amazon Connect

Thank you
